

Meiosis Project Instructions

1. Get a sheet of Poster Paper and follow the template below to divide it and put in the proper headings:

Phases of Meiosis		
Interphase	Description: Comparison to Cell Cycle:	Cut, Paste, and Label all Structures in Models
Prophase I		
Metaphase I		
Anaphase I		
Telophase I and Cytokinesis		
Prophase II		
Metaphase II		
Anaphase II		
Telophase II and Cytokinesis		

2. Print the Meiosis Cutouts from my website and use them to complete the third column of the project.
3. In the middle column, describe the main structures and type of DNA found in that phase. Then make a short comparison to the phase of the corresponding phase of the cell cycle.
