

- a. What function do these structures share?
- b. How are these structures different?

10) Carefully examine the drawings of the bones shown below (Homologous Structures). Look for similarities among the various animals.

a. Color each part of the human arm a different color. (Note: All bones of the wrist should be a single color; all the bones of the hand should be a different single color, etc.) Then color the corresponding bone in each of the other animals the same color as the human bone.
