

Cell Respiration

Complete the diagram with these words or phrases (some may be used more than once):
 Citric Acid Cycle, ATP, Cytoplasm (cystosol), Mitochondria, Electron Transport Chain,
 Pyruvate, Glycolysis, NADH Electron Carrier, FADH₂ Electron Carrier, Glucose

Use the diagram above and the diagram in your NOTES to complete the table.

	Reactants Inputs (What is needed?)	Products Outputs (What is produced?)
Glycolysis	1. 2. 3. 4. 5.	1. 2. 3. 4.
Krebs Cycle (Citric Acid Cycle)	1. 2.	1. 2. 3.
Electron Transport Chain	1. 2.	1. 2.
