

## Ecological Succession, Stability, & Human Impact on Biodiversity

- 1 Anthropogenic Change
- 2 Biomagnification
- 3 Climate Change
- 4 Climax Community
- 5 Ecological Disturbance
- 6 Ecological Equilibrium
- 7 Ecological Fragility
- 8 Ecological Resilience
- 9 Ecological Services
- 10 Endangered Species
- 11 Genetic Variation
- 12 Habitat Destruction
- 13 Hybridization
- 14 Invasive Species
- 15 Keystone Species
- 16 k-selected Species
- 17 Mass Extinction
- 18 Overexploitation
- 19 Pioneer Species
- 20 Primary Succession
- 21 r-selected Species
- 22 Secondary Succession
- 23 Speciation
- 24 Sustainability
- 25 Tradeoffs
- 26 Urbanization
- 27 Watersheds
- 28 Wetlands
